Philladelphia, and Patrick Gilday, of
Clearfield, Penn., as a commission to
devise ways and means for settling
the coal strike in the Colorado mining
trial on a charge of theft from Grand

Coxford entered with some supplies.
The turnkey had occasion to enter a

as his back was turned one of the
Indians dealt him a smashing blow on
the head with a chair, fracturing his
skull. Death ensued in a few minutes.

"I have waited and hoped for a change in their attitude, but now fear that there will be none. And yet I do not feel that I am at liberty to do nothing in the presence of circumstances so serious and distressing. I determined therefore mined, therefore, to appoint the com-mission contemplated in the plan of temporary settlement, notwithstanding the rejection of that plan by the mine operators, and thus at least to create operators, and thus at least to create the instrumentality by which like troubles and disputes may be amicably and honorably settled in the frture, in the hope, the very earnest and sincere hope, that both parties may see it to be not merely to their best interest, but a duty which they ewe to the communities they serve the the parties in the parties. of this instrumentality of peace and reader strife of the kind which has threatened the order and prosperity of the great State of Colorado a thing row and lasting four days. "The Honorable Seth Low, of New York; Charles W. Mills, of Philadelphia, and Patrick Gilday, of Clearfield, Penn., have most generously and unselfishly consented, at my request, to serve as members of the commission. I owe to these gentlemen my own warm thanks not only, but also, I believe, the thanks of their fellow-citizens throughout the country. They will place themselves at the service alike of the miners and the operators of the miners in Colorado in case controversy between them should in the future develop circumstances which would render mediation the obvious way of peace and just settlement."

postmaster since 1881, died at his home this afternoon, the victim of a brutal murder. Death resulted from a fracture of the skull which he received last night, when two men entered his store, struck him down with an iron wagon axle and robbed him, making their escape.

The murderers took \$200 from a wallet and a roll of bills from Mr. Case's pocket. Two cigar boxes filled with money, which Mr. Case had placed on a counter preparatory to taking them to the safe at his home, were overlooked by the robbers. The empty wallet and wagon axle were found close by the body when it was discovered by Mrs. Case and her maid.

Coroner S. A. Herman began his investigation of the murder this afternoon. High Sheriff C. C. Middlebrocks, his deputies and other officers and citizens scoured the county to-day for some trace of the slayers, but their efforts were unsuccessful. There is talk of using bloodhounds in the search, and to-morrow it is likely that a large reward will be offered for the capture of the assassins.

"I suggested some such arrangement to three societies," continued Hartman, "and they regarded it as an intrusion on their inalienable rights. The opinion of Justice William H. Wadhams was that the facilities of existing organizations should be employed. "The people will give," he asserted. "It is an insurance against crime. In cases of burglaries and similar crimes the court record almost always shows, 'man on trial unemployed,' and when it is realized that idleness breeds crime, steps will be taken to remedy it."
